inkana

ULTRA CLEAR GLOSS AND MATTE WHITEBOARDS

Sustainability and Compliance

OUR APPROACH

Sustainability shapes how Inkana designs and makes its products, from material selection to production. We minimize waste, repurpose or recycle excess materials, and use quality control to build durable products that last.

Our designs prioritize recyclability, so materials can be reclaimed at the end of the product's life. Packaging uses minimal material, and the cardboard box has 50% post-consumer recycled content.

MATERIALS

Most of the product weight comes from the glass board and the steel sheet that provides magnetism for the writing surface.

Component	Material	Recycled content
Glass board	Glass	15% pre-consumer
Metal backer	Steel	None
Paint	Water-based paint	None
Adhesive	Adhesive	None
Packaging box	Cardboard	50% post-consumer
Packaging film	PE	None
Packaging protective film	PP	None

Recyclable content: greater than 99% by weight.

COMPLIANCE

Standard	Status
BIFMA/ANSI	Meets or exceeds BIFMA standards for wall-mounted products. Not listed with ANSI/BIFMA.
AODA/ADA	Compliance depends on installation.
RoHS	Product meets RoHS compliance.
Low VOC, ISO 16000-9:2006	Paint and adhesive both meet VOC testing.

Applies to Ultra Clear Gloss (G001) and Matte (M001) whiteboards.

Greater than 99%
RECYCLABLE BY WEIGHT
